Welcome to Universal Trackers - The home of GPS tracking.

Modern GPS tracking technology has been proven to bring significant financial benefits to businesses and their employees – you will quickly take control of expenses and improve efficiency of your people and assets.

We can offer you the best choice in quality, affordability and product features to suit your GPS Tracking needs.

Buy online or call today and join our many customers who have made GPS Tracking work for them!

Vehicle Tracking and theft recovery:

In Great Britain a vehicle is stolen every minute and there are more than 2 million vehicle related thefts per year!

For peace of mind install an integrated GPS Tracking system in your vehicles to enable you to find and recover them in the event of their being stolen.

Covert Tracking:

Covert tracking is often undertaken as part of an investigation into criminal or illicit activities or maybe even for an individuals security and personal protection.

We offer the smallest GPS devices with long battery lives for use in covert investigations.

We also offer a custom made leather belt solution for truly covert tracking that looks the part!

Lone Workers:

For those businesses with remote or “Lone” Workers who go into difficult situations, employers are now also able to provide an additional level of security and monitor your teams and provide them with access to “SOS” or panic buttons.

Asset Protection:

We offer a variety of GPS tracking solutions for tracking and monitoring your valuable business assets. We offer options for both powered and non-powered assets that are easily installed and can provide up to **3 years of operation** with no need for external antenna or power source!

Fleet Management:

Imagine having a manager sitting inside every vehicle in your Fleet out on the road....

Our Fleet Management products enable you to provide this management oversight from any computer connected to the internet (and even from some portable devices).

This is just a selection of our products.
